

# 2022 LSWCD Affiliate Membership

You can be influential in helping to conserve Lexington County's natural resources. You can help a student attend a conservation workshop or receive a scholarship in a natural resource field. You can make a difference in educating the public about conserving the abundance of natural resources in Lexington County, and help to keep Lexington County a wonderful place to live.

By becoming an affiliate member of the Lexington Soil and Water Conservation District, you are joining with others in our county to carry out the important task of preserving the natural environment for future generations. Our conservation friends are important to us, and your financial support will help continue the work that we do. We thank those of you who have generously donated in the past and encourage others to become involved.

The Lexington SWCD Board meets at 4:30 p.m. on the third Tuesday of every month at the USDA Service Center conference room, 123 Park Road, Lexington. The public is invited to attend. Please call if you planning to come (803-358-8688).

Yes, I want to become an affiliate member and sponsor of the **Lexington Soil & Water Conservation District**
